

Current Connecticut CE Approvals

Revised 8/1/2005

Sponsor Number	S11834
Sponsor name	Professional Insurance Agents of Connecticut

Attendance at classroom courses will affect how many credits a producer may receive.

Classroom courses approved for six credits or less-producers must attend 100% of the class time to receive any credit hours.

Classroom courses approved for seven credits or more (if an examination is not required as part of the course)-producers who attend at least 80% but less than 100% of the course will receive 70% of the assigned credit hours.

Exterior is automatically issuing a second course approval and course number for each classroom course approved for seven or more credits. The second course approval will have a course number beginning with C7XXXX and a special message embedded in the course title to indicate that it is the reduced (70%) credit version of the course.

Sponsors must submit rosters with the proper course number for each student. Sponsors must use the course number beginning with CXXXXX for students receiving 100% of the credit and the course number beginning with C7XXXX for those receiving 70% of the credit.
